

Introduction

It is the Government's plan that all pupils, in all year groups, will return to school full-time from the beginning of the autumn term.

As part of planning for a full return in the autumn term, it is a legal requirement that schools and trusts should revisit and update their risk assessments, to consider additional risks and control measures to enable a return to full capacity. Anthem will ensure that appropriate measures are in place to reduce risks to the lowest reasonably practicable level.

This risk assessment template will set out guidance and measures to support schools in the following areas:

1. To minimise contact with individuals who are unwell by ensuring that those who have Covid-19 symptoms, or who have someone in their household who does, do not attend school
2. A robust approach to hand hygiene
3. Good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach
4. Enhanced cleaning arrangements
5. Active engagement with NHS Test and Trace
6. Initiatives designed to reduce physical contact and maximise distancing between those in school wherever possible
7. The use of personal protective equipment (PPE)
8. Manage confirmed cases of Covid-19 with the school community
9. Contain any outbreaks by following advice from local health protection teams

Declaration

Upon completion of this risk assessment, the Headteacher must sign and date it, confirming that all measures have been discussed and will be in place from the autumn term, as per the content of this document.

Name: _____

Signature: _____

Date: _____

This document will be periodically reviewed and updated. The Anthem Property Manager (Corey Gilbert) will arrange an initial review shortly after the start of term; additional reviews may also be required as and when Government advice changes.

Government Level (key action list)	Trust Level (Clarifications, required mitigations and actions for schools)	School Level (Mitigation, responses and confirmation that actions have been completed)
<p>Decide the physical and organisational structures needed to limit risks and limit movement around the building(s) (for example, classroom layouts, entry and exit points, staggered starts and break times, class sizes, lunch queues, use of communal staff areas). Agree how safety measures and messages will be implemented and displayed around school.</p>	<p>How to group children: Schools should consider keeping group sizes to as small as possible to minimise disruption if a case is confirmed in the school. Within the group pupils can mix but groups must avoid contact with other groups throughout the school day. Primary schools should look to group children in individual classes wherever possible. For Secondary schools the necessity to deliver a broad and balanced curriculum will lead to larger group sizes but these would not be larger than a year group. To aid with separation, consider zoning parts of your school.</p> <p>SEN risk assessments: using the Anthem SEN Checklist, schools must ensure that specific risk assessments are completed for all students who are known to have additional support needs in school. All reasonable steps must be taken to ensure that any risks present are kept to their lowest possible level.</p> <p>Measures within the classroom: whilst it is not always possible to maintain a 2-metre distance, especially when working with KS2 children, staff should consider doing so when circumstances allow it; avoiding close face-to-face contact will help, as will minimising time spent within 1-metre of anyone. Maintain a distance of 2-metres in secondary schools, which is strongly recommended by public health advisors.</p>	<ul style="list-style-type: none"> • All pupils at Queensbury will be kept in their year group bubbles. • Years 7/8/9 will be in Our East Building. • Years 10/11 will be in West and 6th form will be in Central and the music area in East. • All teaching desks will be 2 metres from the first row of pupils. • All pupils with an EHCP will have an individual risk assessment written by the Senco by their first day on site (8th Sept) • All teaching desks will be 2 metres from the first row of pupils. • Pupils will be sat facing forward • Hand sanitiser units are to be installed in every classroom as well as cleaning kits with gloves, disinfectant and disposable cloths.

	<p>Classrooms should be configured to support social distancing as much as possible, with desks being arranged so students sit side-by-side, rather than face-to-face or side on, with each desk facing in the direction of the teacher.</p> <p>For KS2 children, they should also be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs and it is not feasible in some schools where space does not allow. Schools doing this where they can, and even doing this some of the time, will help.</p> <p>Each class should be provided with its own supply of hand sanitiser and disposable disinfectant cloths – students and staff must apply sanitiser when entering a classroom and must wipe down their work area prior to leaving.</p> <p>Areas for students withdrawn from classrooms: should a student be asked to leave a lesson for whatever reason (exc. health related incident), identify areas which can safely be used for those asked to leave a lesson; social distancing and enhanced cleaning measures must be maintained in these areas due to students from all year groups potentially accessing it.</p> <p>Windows: where possible, windows should be opened to increase ventilation around all rooms used by staff and pupils.</p>	<ul style="list-style-type: none"> • Windows will be opened wherever possible. • Door closers have been fitted on all fire doors in order to prop them open to avoid over touching • Isolation can only be used in exceptional circumstances as an alternative to fixed term exclusion. Removal from lesson can be facilitated where a ‘room swop’ timetable can operate within year ‘bubbles’. Therefore, all teachers will be asked to accept/volunteer to receive students into their lessons after a student has been removed from another class in the same year group • Windows will be opened wherever possible.
--	---	---

	<p>Doors: bearing in mind fire safety and safeguarding requirements, consider propping doors open to aid with ventilation and to limit handle use.</p> <p>Air-conditioning: the risk of air-conditioning spreading the virus is extremely low, therefore certain types of air-conditioning systems can be used, if required. If a system introduces fresh air into a room, then they can be used in all locations. An air-con system which only recirculates air within the same area (i.e. no fresh air is introduced), they can be used but only if they serve one room only; any air-con system of this type serving multiple rooms must not be used unless the recirculation mode can be deactivated.</p> <p>Ventilation systems: where mechanical ventilation is present, recirculatory systems should be adjusted to full fresh air. If this is not possible, systems should be operated as normal. Where possible, occupied room windows should be open. Ventilation to chemical stores should remain operational.</p> <p>If you are unsure what type of systems are in use, please consider seeking guidance from a mechanical engineer.</p>	<ul style="list-style-type: none"> • Door closers have been fitted on all fire doors in order to prop them open to avoid over touching • We have single unit air con systems in the IT suites. We will ensure we follow current guidance and switch off when necessary • Ventilation systems in our science chemical store, teaching kitchen and DT rooms all remain operational
	<p>Entry and exit points (classrooms): where possible, schools should use doors leading outside in addition to the main door leading in from corridors.</p> <p>Entry and exit points (main access): where possible, to avoid busy pinch-points, schools to create entrance only and exit only points into the main building/site at specific times of the day (e.g. morning arrivals and home-time).</p> <p>Corridor and stair usage: there is low risk of contagion though passing</p>	<ul style="list-style-type: none"> • Years 7-9 arrive through central gates • Use separate bicycle storage for each year groups • Year 9 leave East building through rear kitchen entrance • Years 7 and 8 enter and leave their bases via lower playground • Key stage 4 students will enter the building escorted past NW1 and a one-

	<p>people in corridors and stairwells, however, they should only be used for safe rapid-transit from one place to another (e.g. no congregating in corridors).</p> <p>Fire strategy: schools must review their fire evacuation strategy, taking into account the need to maintain social distancing as much as is reasonably possible. A planned evacuation must be completed within the first week of term.</p>	<p>way system will operate anticlockwise past the hall through the technology/art corridor and out past the west gym</p> <ul style="list-style-type: none"> • No students admitted on site until 15 minutes before their start time • A fire drill will take place in the first week of term by Tues 15th September (students return on 8th)
	<p>Staggering starts and finish times: schools should consider introducing staggered start times for each year group, ensuring that the start and finish times are at least 15-minutes apart for each year group using the same entrance.</p> <p>Arrangements must be discussed and agreed with your teaching staff and communicated to parents.</p>	<p>Students will have staggered arrival times.</p> <ul style="list-style-type: none"> • Year 7- 8.30am, • Year 8- 9.15am, • Year 9- 10am, • Year 12- 8.30am, • Year 10- 9.15am, • Year 11- 10am
	<p>Lunch and break times: staggering lunch and break times, by groups, will help ensure that social distancing of groups is maintained. If space allows, consider temporarily converting another large space into a second dining area, or arrange for lunches to be taken within each group setting.</p>	<p>All lunch breaks staggered by 45 mins they will be for the duration of 30 mins with 15 mins between each session for cleaning. Only one break per day</p> <ul style="list-style-type: none"> • Y7 11am • Y8 11.45am • Y9 1pm • Y10 11.45am • Y11 1pm

	<p>Use of communal staff areas: Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised, although staff must still have a break of a reasonable length during the day.</p> <p>Adults must maintain 2-metre distance from each other at all times.</p> <p>You must consider measures to reduce staff members touching/using the same equipment or sharing food – consider providing disposable cups, crockery, etc. and providing disinfectant wipes near tea-making facilities.</p> <p>Nursing mothers: an individual risk assessment should be completed for any staff member wishing to express milk whilst at work.</p>	<ul style="list-style-type: none"> • Y12/13 11am • Ideally, adults should maintain 2 metre distance from each other were possible including at breaks and lunchtimes in the staff room. Staff are encouraged to wear masks when sharing communal areas and have been informed to do so. • The staff room and pastoral office will be made available as a workspace where departmental offices do not offer the required room for colleagues to be able to socially distance or where staff are away from their normal departmental area • The staff room will be a shared space with 6th form students using it for access because of the one-way system • Teachers will be able to arrive in school in good time to teach their first lesson and leave after they have taught their final lesson of the day. • Department/Year/HoD etc. meetings will be conducted remotely when possible. • The timetable has been written to minimise the cross over of staff between year group bubbles, where this is unavoidable teaching to a maximum of two-year groups have been timetabled.
--	---	--

		<ul style="list-style-type: none"> • Disinfectant wipes, cleaning equipment and hand sanitiser is available in all rooms used; teaching rooms, staffroom and offices etc • We have one nursing mother who has been allocated a room and has been asked to use her own cool bag for storage. A Risk Assessment has been completed
	<p>Signage, posters and training: posters encouraging social distancing and the importance of maintaining hygiene levels must be displayed around the school. Training must be provided to staff prior to the school reopening.</p>	<ul style="list-style-type: none"> • Signs will be laminated and displayed around the site reminding all of one-way systems and 2 metre distancing. The display screens will project the Catch it, Kill It, Bin it, messages.
<p>Decide what an enhanced cleaning schedule looks like and how it will be implemented in your school (for example, how often, when/if an additional clean is necessary) and how you will ensure sufficiency of supplies.</p>	<p>All cleaning undertaken must be enhanced. As a minimum, in addition to the normal clean, door handles, desks and other items frequently used by staff and pupils must be wiped using disposable disinfectant cloths.</p> <p>Cleaning schedule (classrooms used by the same children all day): an enhanced clean is only needed at the end of the day. If more than one staff member provides teaching within this setting, they must wipe down their workstation upon arrival and prior to leaving.</p> <p>Cleaning schedule (classrooms used by different children but from within the same group): in addition to an enhanced clean at the end of the day, staff and students should wipe their workstations down with disposable disinfectant wipes before and after using their workstations.</p>	<ul style="list-style-type: none"> • The cleaning schedule has been enhanced to include a number of additional cleaners employed to be in the academy during the day to do regular cleaning of the touch points and to assist with the cleaning of the canteen areas between sittings. • We have a stock of disinfectant and wipes as well as gloves and tissues, a kit has been provided for each room used. The cleaning materials used by the cleaners are supplied by the contractor. • Meeting held with contractor who has provided details of cleaning material used

	<p>Cleaning schedule (classrooms used by different groups): before a new group can use a classroom previously occupied by a different group, an enhanced cleaned must be undertaken.</p> <p>Cleaning schedule (communal areas): For any areas shared by staff or different groups, at least two additional cleans must be completed throughout the day and, if possible, undertaken during break times. In addition to this, the catering team should assist with enhanced cleaning and hygiene levels during lunch service.</p> <p>Cleaning supplies: ensure suppliers are able to honour orders and that good stock levels are maintained at all times. Stocks of hand sanitiser must be stored securely and away from ignition sources.</p> <p>Schools must confirm schedule and specification of clean with cleaning team and staff.</p>	<ul style="list-style-type: none"> • Students will wipe down tables before leaving classrooms and dispose of wipes in lidded bins
	<p>Toilet access: different groups don't need to be allocated their own toilet blocks, but toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet.</p>	<ul style="list-style-type: none"> • Each Key stage will have their own dedicated toilets. • Key Stage 3 students- East toilets, • Key stage 4- West, • W4 students- fitness suite, • ARC students- log cabin. • Toilets will be locked during lesson times and lesson changeovers but unlocked and supervised for breaks. Students with a 'toilet card' will be able to leave lesson to visit the toilet and will gain access by borrowing the key from office staff (East- finance, West- west reception, Central- central reception). Teachers may use their own judgment if

	<p>Respiratory hygiene: ensuring good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach. To provide paper handkerchiefs and lidded waste bins lined with bin bags in key locations (group settings, dining areas, staff rooms, etc.). Lidded bins must be frequently emptied, ensuring that the contents are not touched and that the bin bags are securely fastened prior to disposal.</p> <p>Face coverings: Public Health England does not (based on current evidence) recommend the use of face coverings in schools. This evidence will be kept under review.</p>	<p>they feel that a student without a ‘toilet card’ has a genuine desperate need to visit the toilet and send them with a note to get access. Toilet use will be logged.</p> <ul style="list-style-type: none"> • Sixth formers will use the central downstairs toilets at lunch, but as stated above the toilets will be locked at all other times. The toilets can be available at other times for use for sixth formers only by accessing the key through central reception • Each student to have access to hand sanitizer for additional hygiene purposes. Hand washing or hand sanitize on arrival will be part of the process. Catch It, Bin It, Kill It displayed on boards around the site, lidded pedal bins to be made available for disposal of tissues to be purchased. Signage to be used, cleaning kits to be made available in each room occupied. • Students and staff will be advised to wear face masks in all communal areas. This includes anytime a member of time
--	--	---

	<p>However, face coverings are required at all times on public transport (for people aged 11 and older).</p> <p>Schools should also have a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them. Pupils must be instructed not to touch the front of their face covering during use or when removing them. They must wash their hands immediately on arrival (as is the case for all pupils), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom.</p> <p>Handwashing: soap and water or hand sanitiser are considered suitable (paper towels and hand driers are acceptable ways to dry hands). In addition to handwashing after toilet use, to introduce the following hand washing schedule;</p> <ul style="list-style-type: none"> • Upon arrival • After break times • When changing classrooms • Before and after lunch • Prior to home time • After coughing or sneezing into hands <p>All visitors must be directed to wash their hands or to use hand sanitiser upon arrival.</p> <p>To help facilitate this requirement, each classroom should have its own supply of hand sanitiser and additional hand washing stations should be considered.</p> <p>Schools should also consider supervising handwashing stations during busy periods so that overcrowding of facilities is effectively managed and kept to a minimum.</p>	<p>leaves their desk. Masks are not required in the classroom or in outside spaces</p> <ul style="list-style-type: none"> • Visitors will be required to wear face masks, this includes parents. • A parent communication will go out from Mr Little based on the guidance duty staff will be on the gates for pupil arrivals and pupils will be reminded of the process <ul style="list-style-type: none"> • It will be mandatory for all students to hand sanitize on entering classrooms and when leaving each time, they do so. This will be supervised. • Hand sanitiser units have been fitted to each classroom/office/library/staffroom etc on the wall close to the door for this purpose
--	---	---

	<p>Clothes washing and uniforms: Uniforms and clothing do not need to be cleaned any more often than usual, nor do they need to be cleaned using methods which are different from normal. You should consider how pupil non-compliance is managed, taking a mindful and considerate approach in relation to parents who may be experiencing financial pressures.</p> <p>Shared items (internal): For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> <p>Pupils must limit the amount of equipment they bring into school each day, to essentials such as lunch boxes, hats, coats, books, stationery and mobile phones. Bags are allowed. Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Similar rules on hand cleaning, cleaning of the resources and rotation should apply to these resources.</p>	<ul style="list-style-type: none"> • Parents have been asked to wash uniform everyday if possible • Pupils will be asked to come to school in PE kit on the days they have PE in their timetable • There will be no shared resources, a supply of pens will be available for pupils who forget them. The pens will not be collected back after use. • There will be no singing, music lessons will be restricted to theory listening and body percussion
--	--	--

	<p>Homework and coursework: where feasible, instead of submitting physical copies of their work, consider asking students to submit written homework and coursework online.</p> <p>Outdoor Playground Equipment: Outdoor playground equipment should be more frequently cleaned. This would also apply to resources used inside and outside by wraparound care providers.</p> <p>Signage, posters and training: posters encouraging social distancing and the importance of maintaining hygiene levels must be displayed around the school.</p>	<ul style="list-style-type: none"> • In order to reduce the amount of contact between students and teachers, class exercise books will not be marked formally in any subject in the first half-term. • Books will be visually checked, and students’ understanding/misconceptions addressed through teachers’ planning and teaching. Assessed pieces of work will be marked by teachers with a mixture of individual and class feedback provided. We will encourage students and staff to upload and give feedback on work online where possible and appropriate. • Signs have been laminated and displayed around the site reminding all of one-way systems and 2 metre distancing. The display screens will project the Catch it, Kill It, Bin it, messages.
<p>Plan the school level response should someone fall ill on site (in line with</p>	<p>Isolation room: schools must identify a suitable room (preferably not one used for lessons) which can be converted into an isolation room, if the need arises. The room should be used if a pupil or staff member develops symptoms associated with Covid-19 (a new, continuous cough or a high</p>	<ul style="list-style-type: none"> • Meeting room in Central. PPE and first aid kit including a thermometer to be kept in there. It will not be used for any other purpose

<p>relevant government guidance).</p> <p>Make arrangements for the very small number of cases where personal protective equipment (PPE) supplies will be needed: if your staff provide intimate care for any children or young people and for cases where a child becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home.</p>	<p>temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia)). The room must be capable of accommodating up to three people at any one time whilst 2m social distancing is maintained and if possible, should include openable windows (to help with ventilation). As a minimum, the room must be equipped with a first-aid kit, bottled drinking water, PPE and hand sanitiser.</p>	
	<p>Protocol for responding to a person(s) who has fallen ill:</p> <p>In addition to any requirements set out by Health Protection teams, you must immediately contact Sheila McKenzie and your Education Director. You must also appoint a representative from the school who will lead on all communication regarding suspected or confirmed cases.</p> <p>If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised that they must self-isolate for at least 10 days and should arrange to have a test (by calling NHS 119) to see if they have coronavirus (COVID-19). Other members of their household (including any siblings) should self-isolate for 14 days from when the symptomatic person first had symptoms.</p> <p>If a child is awaiting collection, they should be moved to the isolation room, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>PPE is not required unless either maintaining a distance of 2-metres is not possible or either the patient or supervising adult wishes for it to be used.</p>	<p>For non COVID related cases</p> <p>Teachers will be asked to email ‘first aid’ with the room number and the child’s name and symptoms, a rota will be set up with a first aider on duty for East and West each day to deal with minor issues. The first aider will go to the pupil rather than pupils from different years groups congregating in the first aid area of Central.</p> <p>Urgent/Serious first aid incidents will be sent to the medical room</p> <p>For suspected COVID cases</p> <p>Teacher to email ‘first aid’ and designated COVID responder will go to the class wearing PPE to collect the pupil.</p> <p>The pupil will be asked to wait outside of the classroom to minimise transmission to other pupils.</p> <p>Parents of pupils to be contacted for collection of their children and will be requested to arrange a test.</p> <p>First aider wearing PPE to stay with the pupil or staff member in the isolation room until they are collected.</p>

	<p>If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible.</p> <p>If the condition of the patient is considered critical, the emergency services should be contacted.</p> <p>First aid: For non Covid-19 related incidents, schools should follow their normal protocol for responding to accidents. There is no requirement for PPE other than what is normally recommended. Ideally staff within a group would be trained so that they could deal with non Covid-19 related incidents.</p> <p>Temperature checking: Public Health England is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19). However, if temperature checking is deemed necessary, non-contact, infrared forehead thermometers should be used.</p>	<p>Isolation room to be deep cleaned/disinfected after. Any tissues or other waste to be double bagged for disposal.</p> <p>Staff will take themselves home if well enough and arrange a test.</p> <p>Business Manager and Medical Officer have access to the on line test request service</p> <p>Any cases to be reported to the Trust as per the guidance</p>
	<p>PPE - when it is required: personal protective equipment should be stocked and should only be needed in the following scenarios:</p> <ul style="list-style-type: none"> • supporting those suspected of having Covid-19 where maintaining a distance of 2-metres is not possible or that either the patient or supervising adult wishes to wear it. • staff members required to support any student with their mobility around school and a distance of two metres cannot be maintained. 	<p>We have a stock of PPE for dealing with suspected COVID cases, appropriate use to be communicated to all first aid staff.</p>
	<p>PPE - what items are required: should PPE be required; the following items should be provided to staff members;</p> <ul style="list-style-type: none"> • a fluid-resistant surgical face-mask • disposable gloves 	<p>We have a stock of PPE for dealing with suspected COVID cases, appropriate use to be communicated to all first aid staff.</p>

	<ul style="list-style-type: none"> • disposable aprons <p>These items are considered single-use and must be securely placed in a clinical waste bin when no longer required.</p>	
	<p>Protocol for when the incident is over: schools should follow their normal incident reporting process. In addition to the enhanced cleaning schedule, any items used by the patient prior to being taken ill must be cleaned as quickly as possible. If this is not possible, items should be removed from use until the scheduled clean can be completed (or quarantined for 72hrs).</p> <p>All PPE worn by the supervising adult must be securely placed in a clinical waste bin and thorough hand washing must be completed before continuing with their duties.</p> <p>Schools must obtain an update on the individuals health, ensuring that Government guidance regarding testing and self-isolation is adhered to.</p> <p>If someone tests negative: if someone tests negative, if they feel well and no longer have symptoms similar to coronavirus (COVID-19), they can stop self-isolating. They could still have another virus, such as a cold or flu – in which case it is still best to avoid contact with other people until they are better. Other members of their household can stop self-isolating.</p> <p>If someone tests positive: if someone tests positive, they must continue to self-isolate for at least 10 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense of smell/taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 10-day period starts from the day when they first became ill. If they still have a high temperature, they should keep self-isolating until their temperature returns to normal. Other</p>	<p>This protocol will be followed, our Medical officer and Safeguarding lead have been given this protocol for their guidance in dealing with any cases. The Business Manager will be the named contact for the Local Health Team.</p>

	<p>members of their household should continue self-isolating for the full 14 days.</p> <p>All results must be communicated to your Education Director/EET.</p> <p>Manage confirmed cases of coronavirus (COVID-19) amongst the school community: in addition to notifying Sheila McKenzie and your Education Director, schools must take swift action when they become aware that someone who has attended has tested positive for coronavirus. You should contact your local health protection team – to ensure consistent updates and communication is maintained, a school representative must be appointed as the main point of contact between the school, the local health protection team and trade union representatives. This team will also contact schools directly if they become aware that someone who has tested positive for coronavirus (COVID-19) attended the school – as identified by NHS Test and Trace.</p> <p>The health protection team will work with you in this situation to guide them through the actions they need to take. Based on the advice from the health protection team, schools must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious.</p> <p>The health protection team will provide definitive advice on who must be sent home. To support them in doing so, we recommend schools keep a record of pupils and staff in each group, and any close contact that takes places between children and staff in different groups. This should be a proportionate recording process. Schools do not need to ask pupils to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.</p>	
--	--	--

	<p>A template letter will be provided to schools, on the advice of the health protection team, to send to parents and staff if needed. Schools must not share the names or details of people with coronavirus (COVID-19) unless essential to protect others.</p> <p>Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’. They should also get a test (by calling NHS 119), and;</p> <ul style="list-style-type: none"> • if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days. • if the test result is positive, they should inform their setting immediately, and must isolate for at least 7 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 14-day isolation period). Their household should self-isolate for at least 14 days from when the symptomatic person first had symptoms, following ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’ <p>You should not request evidence of negative test results or other medical evidence before admitting children or welcoming them back after a period of self-isolation.</p> <p>If you have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected: you must continue to work with your local health protection team who will</p>	
--	---	--

	<p>be able to advise if additional action is required. In some cases, health protection teams may recommend that a larger number of other pupils self-isolate at home as a precautionary measure – perhaps the whole site or year group.</p> <p>Your Education Director/EET will provide full support during this period, therefore you must ensure that they are kept updated.</p> <p>Local or national lockdowns: should partial or full lockdowns come into force, Anthem will consult, review and amend specific arrangements for any school as and when required</p> <p>As a minimum, schools should be ready to reintroduce virtual learning at short notice.</p>	
<p>Plan arrangements with your suppliers and check they are following appropriate social distancing and hygiene measures (for example, food suppliers, grounds maintenance, transport providers), including when in school.</p>	<p>Visitors: schools must limit the number of visits as much as possible. Telephone or Teams/Zoom appointments should take place, where possible. If a face-to-face meeting is deemed necessary, you must ensure that social distancing is maintained and that visits are scheduled via appointment. Visitors should be asked that if they have symptoms or have been in contact with anyone who has symptoms that they do not enter the school grounds. Hand washing should take place immediately before and after a meeting.</p> <p>Test and trace: for all contractors and visitors, schools must ensure that a sufficient system is in place where contact details are recorded for each visitor. This information must be stored securely and made available for test and trace purposes, when required.</p>	<p>Visitors will not be encouraged, pupils to come in without parents.</p> <p>All visitors to come to Central reception doors to be wedged open for limited touch, hand sanitizer available at reception. The signing in system includes a COVID free declaration for visitors. Also fields to complete their phone number and email for Track and trace. No visitors allowed into the rest of the site apart from contractors undertaking essential works.</p> <p>Any essential visitors will be asked to wear a face covering.</p>
	<p>Deliveries: where possible, coordinate deliveries so that multiple deliveries do not arrive at the same time. When placing ordered, schools should ask suppliers to confirm that appropriate hygiene and social distancing measures will be in force during deliveries.</p>	<p>Deliveries are sporadic, they come to Central only.</p> <p>Will ensure deliveries are received safely with distancing. Suppliers to be informed when ordering. Reception staff to be trained in safe receipt of deliveries and visitors.</p>

	<p>Building checks prior to reopening: It is important that, prior to reopening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe. You should contact your water hygiene specialist to advise what maintenance/servicing has taken place during the summer. Any recommendations for flushing, chlorination, etc. must be undertaken before reopening. Ensure that any recommendations, even if no additional action is required, is confirmed in writing by your specialist.</p> <p>Building works and contractors: any work undertaken must be completed safely and in accordance with social distancing and hygiene requirements. Contractors must provide risk assessment and method statements and schools must confirm acceptance of their proposed precautions in advance of arriving on-site schools.</p> <p>Third-party services: any service provider providing frequent services on-site (e.g. after school care, sports coaching, cleaning, catering, etc.) should provide you with a copy of their own risk assessment. Providers must provide clarification regarding procedures for dealing with staff members (and their families) who display symptoms of Covid-19 or are instructed to self-isolate. If deemed necessary, share copies of your own risk assessments with them. It is important to ensure that all mitigation measures in place support the schools aim of reducing the risk to its lowest possible limit.</p> <p>Room hires: you can consider requests for room hires by third parties. Prior to accepting a booking, you must be satisfied that the booker is taking reasonable steps to keep the risks at their lowest reasonably practicable level; copies of their risk assessments must be shared with you.</p> <p>Prior to the school using any area hired, an enhanced clean must be completed – the cost for this should be added to the hire fee.</p> <p>School transportation: if a specific bus service is provided for your school, you must work with the operator, ensuring that a copy of their risk</p>	<p>Building works have restarted however social distancing is maintained from academy staff always and each other whenever reasonably possibly.</p> <p>Water hygiene testing is in hand.</p> <p>Site Manager is aware of all restrictions and is managing works and maintenance visitors to comply with distancing and hygiene policy</p>
--	--	---

	<p>assessment is shared; adherence to their safety measures must always be maintained (e.g. any requirements surrounding face coverings, hand washing, social distancing, etc.). A clear protocol should be in place for responding to any passenger who falls ill mid-journey. If you have concerns with any of the mitigation proposed, you must discuss this with them as soon as reasonably practicable and seek support from the trust, if required</p> <p>Where possible, schools should work with the transport provider to ensure that groups do not mix whilst using the bus service (as well as before and after boarding) If this is not possible, social distancing and face masks must be used.</p>	
<p>Work with your catering supplier to ensure meals are available for all children in school.</p>	<p>Catering providers: it is expected that the usual lunch time provision will resume as normal. However, discuss with catering providers how to deliver a service whilst ensuring sufficient hygiene and social distancing measures. Providers must provide clarification regarding procedures for dealing with staff members (and their families) who display symptoms of Covid-19 or are instructed to self-isolate. Support the marking out of kitchens where necessary. If a hot meal service is not possible then provide a packed lunch service.</p>	<p>Business Manager has held two meetings with HCL over the summer break</p> <p>Autumn Term Plans are -</p> <p>Staggered lunch breaks, all touch points tables and chairs to be cleaned between each sitting. Additional cleaners contracted to do this in both buildings</p> <p>Biometric touch point to be wiped after each use. Served food only, selecting items and placing back down will not be allowed.</p> <p>No cash. Top ups on site not available, online top ups only</p>
