NHS Test and Trace: COVID-19 testing for staff and students

Dear Parent or guardian,

We are working to keep Queensbury as safe as possible. You may have heard that testing for those without coronavirus symptoms is beginning across the country using new, quicker COVID-19 tests known as 'lateral flow tests'.

Along with the other protective measures we are taking, these tests will help staff and students to remain in school safely. Up to one third of people who have coronavirus experience no symptoms. By testing we will help to stop the virus spread and help to keep Queensbury open as safely as possible. The test is voluntary, but I would encourage everyone to take it. We will be testing all staff and students who want to participate from week commencing 4 January 2021. I enclose an instructional leaflet with some more information.

If you are happy for your child to be tested, please fill in the form below and return it to Queensbury via the external post box or by scanning and emailing to admin@queensbury.anthemtrust.uk. Also please complete the consent statement (one per student) which is an electronic form, the link will be sent to you via Parentmail.

Those taking the test will be supervised by trained staff. The 'lateral flow' tests are quick and easy using a swab of your nose and throat. For under 18s, staff can oversee the swab process. Results (which take around half an hour from testing) will be shared directly with staff and students participating only if the result is positive. Where participants are under 16, parents or legal guardians will also be informed if the result is positive.

We know these tests work - in validation studies conducted by Oxford University and Public Health England, they were shown to be as accurate in identifying a case as a PCR test (99.68% specificity). The tests have lower sensitivity, but they are better at picking up cases when a person has higher viral load, hence the need to test frequently. Testing will be offered free of charge.

Registration

To process the test, we will register all participating students.

To complete this registration please fill in the form below and complete the forwarded consent statement.

What if a Student tests positive?

Participating staff and students who test positive will be informed about their results individually. Where participants are under 16, parents or legal guardians will also be notified. Guidance on safe travel and additional precautions will be provided along with test results.

Pupils will need to take a further 'PCR test' (similar to those done in local and regional testing sites) on the same day (or as soon as possible). Queensbury will be able to provide these PCR test kits to perform at home or you can go to www.gov.uk/get-coronavirus-test or call 119 to book a follow-up test. If ordering a PCR test yourselves, you should choose to visit a drive-through test site if possible, as it is faster than requesting a home test.

During this time while they wait for the PCR result (via text / email) they will need to self-isolate.

If the PCR test returns a positive result you will have to self-isolate and follow the guidance from NHS Test and Trace.

What happens if the test is negative?

They will be able to stay in school and resume their activities as normal. A pupil will only be told if they test positive on a 'lateral flow' test, so if you do not hear you can assume it was negative. A small number of pupils may need to repeat the test if the first test was invalid or void for some reason.

What if a close contact at school tests positive?

A close contact of someone in school who has tested positive for COVID-19 will be able to return to school if they agree to be tested once a day for 7 days and the test is negative. If they do not want to take the test, they will need to self-isolate as per the national guidelines. This does not apply to household members or close contacts outside of school who will still need to self-isolate. Further details will be provided at the time, but if you would prefer to self-isolate instead of doing daily testing, you can.

What if my child develops symptoms?

This testing programme at school is for people with no symptoms. If your child develops symptoms at any time (such as a high temperature; a new, continuous cough; or a loss or change to their sense of smell or taste) they must immediately self-isolate, and book a test by calling 119 or visiting <https://www.gov.uk/get-coronavirus-test>.

We will support our staff and pupils throughout, but please contact us if you need this information in any other language or format or if you have any questions. You can call the office on 01582 601241 or email admin@queensbury.anthemtrust.uk

Yours faithfully,

A handwritten signature in black ink, appearing to read 'ML', with a small dot at the end.
